**Comments on the DOE's Preliminary Recommendation of a Yucca Mountain  
Nuclear Waste Repository - Sept. 5, 2001**

SEP 05 2001

- ☒ Preliminary site recommendation is premature without a final Environmental Impact Statement.
- ☒ Preliminary site recommendation is premature without a Nuclear Regulatory Commission licensing rule or Sufficiency Review.
- ☒ Preliminary site recommendation is premature without finalized Siting Guidelines.
- ☒ Preliminary site recommendation is premature without assessment of a detailed plan for transporting nuclear waste.
- ☒ The Environmental Protection Agency's standards for radiation protection at Yucca Mountain are inadequate and would allow unacceptable levels of contamination from the proposed dump.
- ☒ The Secretary of Energy should NOT recommend Yucca Mountain for development as a nuclear waste dump!
